

# Contractors, Renovators, Painters: Lead Safety Training is now required by law.

**EPA's Renovation, Repair and Painting Rule (RRP) went into effect** on April 22, 2010. It requires renovation and painting contractors and most other trades who work in any pre-1978 building and who may disturb painted surfaces to become Lead Certified Renovators by taking a *Lead Safe Work Practices Course*. Buildings where children are frequently present, such as homes, schools and day care facilities, also require RRP Certified Workers.

## The RRP rule applies to you if you work in:

- Painting
- Electrical
- Plumbing
- Demolition
- Carpentry
- Heating & air-conditioning
- Window replacement
- Renovation
- Remodeling
- Handyman work

## 8-hr RRP Certification at ISES:
